

Background Info

With over 20 years working in marketing at a senior level and in my own agency, I've collaborated with a variety of marketing service providers.

I've chosen the best of the best to support my clients with SEO, web design, digital marketing, graphic design, photography, videography, and have partnered with a fellow wordsmith to help out in busy times..

I am happy to make an introduction. They all share my work ethic, my high standards, my values, and their customer service is second to none.

Please note, that any reference to BMG (Boomerang Marketing Group) and Resort TV refer to former agencies I operated.

Australian-founded, internationally acclaimed Quantumlinx (SEO & Digital Marketing Service) rebranded to Digital Spotlight. I have direct access to Managing Director and CEO, Ash Aryal, and Head of Consulting, Blake Horton.

We've had a working relationship for over 10 years and I can personally vouch for their integrity, professionalism, and incredible customer service. They get results and are a joy to deal with.

I'm a proud Digital Spotlight Agent. Allow me to arrange a call or online meeting with Head of Consulting, Blake Horton, or one of his senior consultants.

"...Seventy percent of my business comes directly from our website ..."

My name is Don. My partner Jim and I own Granicrete Australia P/L. We had a website and thought that was good enough, but soon learned that a website is like a car, it just sits there if nobody drives it. I was contacted by [*BMG SEO Partner] and through a couple of conversations with them I was shown that my site did not rank on Google, not even in the top 10,000. However, just because someone says they are able to get your site ranked on Google does not mean they can.

I am a natural born skeptic, so of course I wanted proof. Long story short, I checked them out and found them to be a reputable company. Even so, I did not believe they could do as they claimed. I think the main reason I did not believe them was because I had heard it all before and tried a few large companies with adwords and all the rest, spending the big bucks and getting little to no results. When [*]said they could get me on the first page in a short period of time I figured that I might as well give them a try and see if they could deliver. Why not? I did not have to sign a contract for 12 months or anything like that.

Let's just say it took the team at [*] just about half the time they said it would to get me on the first page with every keyword I gave them. I was extremely impressed, but not as impressed as I have been with the continued support for the last 3 years! Seventy percent of my business comes directly from our website. A wonderful website that [*] built for us. If you are thinking of doing business with [*] I would recommend that you get started now and let Quantumlimx drive your website to success!

"Dear [*BMG SEO Partner] Team

I write to say a huge thank you for all the wonderful work you have done for the rankings of my website on Google, which in turn has created a very positive impact on my bottom line.

To be honest, when i was first contacted by you, I was "the greatest sceptic", and in the back of my mind I was thinking "this probably won't work". However, I was hearing my competitors were doing loads of business through Google, so I decided I would have to give it a try if I wanted my business to grow. i knew I was one of the best, if not the best at what I do, but no one was finding me!

It's been nearly 2 years now, and at last count, we were sitting on 71 top 10 rankings in Google. 43 of which are number 1! I know the new keywords we have started to target will increase this figure even more. Our traffic continues to steadily increase as well. I couldn't have wished for better results.

Thanks to you, now the internet and referrals are giving me more work than I can handle.

I also would like to thank you for taking the time to understand my business, this was a really important factor in that you began to pre-empt what I required, hence I could get on with doing business. I don't even think about my rankings any more because I have such great faith in your team.

I have no hesitation in recommending your services to any business owner who wants to generate business from Google, and any business owner who is serious about thriving in this new internet dominated industry.

In fact, I've already recommended you to two business partners in another few ventures I'm involved in.

Thank you again.

As an IT consultant and an owner/operator of an online store, I am inundated by emails from companies offering SEO services making all manner of fantastic claims.

Knowing the depth of understanding required to deploy effective SEO and having been caught in a 12 month contract with another firm whose results were somewhat lacklustre, I was hesitant to commit to further expenditure in this area.

After making contact with the [*] team, I immediately gained the impression that I was onto a good thing. Everyone with whom I've dealt at [*] has been genuine, helpful, happy to explain what they are doing and most importantly why – and the results speak for themselves.

My online store is now receiving in excess of 4,000 visits per month, (compared with approximately 2,600 before [*] commenced work). We are exceeding our daily traffic targets and my site is gaining more traffic than another client of mine who's business is ten times the size of my own, (in terms of annual turnover).

This result has been achieved in less than 6 months and traffic is still increasing. From direct experience I can say that not only do [*] techniques work but that they are exponentially more effective than some other systems out there. With [*]securing my store's rankings and traffic I can get back to focusing on conversion. I look forward to a long and fruitful relationship with [*] knowing that they too are in it for the long haul.

"...Amazing results from an amazingly passionate team!"

When you began work on SEO for Big Red Bus Web Design I must confess that I didn't think we would get to page 1 of anything because almost every competitor we have undertakes their own seo.

I was already aware of the limitations of "back-yard" seo but with the rankings we now have, I realise the extraordinary difference in outcome by using real experts in the field.

This is no fluke.

[*BMG SEO Partner] has performed equally well for all our clients that have made the switch to [*]

Many, as we, are showing signs of improved profits, a marvel given these unstable economic times.

Dear [*] Team. After three years, several thousands of dollars & two previous SEO companies promised to deliver, we knew exactly which page we wanted to be on when [*] began consulting with us over a year ago. There wasn't much negotiation ...page 1 Google for Outdoor Furniture or we were going elsewhere. With no obligation to stay and less to pay, it was pretty simple, we decided to give [*] a go.

It did take time, but there was constant communication from the team with suggestions for modifications to improve our rankings, backed up with monthly reports to show our improving results. Finally a SEO company who was listening to what we wanted and was acting on that information.

Reaching Google page 1 has been like hitting a major jackpot. The amount of inquiries that have turned into sales has exceeded our expectations. We’ve had to employ more staff to keep up with orders. We know there is only one reason our business has turned around and it’s because of the dedicated team at [*]

No hesitation what so ever to recommend [*] to other businesses. Contact us through www.outdoorfurnitureonline.com.au.

Thank you again to everyone at [*] for the exceptional job you do for our business.

The feedback from our clients was very good, they were very impressed on how Maike managed the photo shoots and took time in asking what they wanted to achieve.

I offered Maike permanent employment after seeing her high standard of service ethics, to manage our existing client base and create new clients by selling TV advertising for our company Resort TV.

Maike took our product to a whole new level and really excelled in her role as Sales & Account Manager, recording the highest sales achieved in a 6 month period.

"Maiké, I must say that the work you've done on the launch of the What's Happening_ website is brilliant! To come back from Canada and find it finally up and running and generating so much interest from TV and press, as well as clients wishing to book advertising space has been a most pleasant surprise. I always believed the concept would be successful but I don't think it would have gotten off the ground in the manner it has without your marketing and sales expertise, and despite the very small budget you had at your disposal and a mere 3 weeks. Thank you also for making time to be there for the various media interviews. I wish I could afford to employ you full time! If the bookings keep coming in at the current rate, I may be making you an irresistible offer in the not too distant future! Ever so grateful

As a former Director of Resort TV, I had the pleasure of working with Maike during her initial time with us from August 2005 to July 2006 as our business development / account manager / co-producer and, in later years, after returning from a three year stay in Europe, as our honorary GM, BDM, Account Manager & Co-Producer (2010-2014); managing the business in her own time, in addition to her other obligations.

Right from the beginning, Maike took our program and business to the next level. She is a very passionate and creative individual with diverse talents, particularly in the area of marketing, business development and project management. She has excellent communication skills and is able to relate incredibly well with a diverse range of stakeholders.

Developing strategic new content for our tourism program, she created new markets for us to target, which resulted in an increase in advertising revenue of 192% in the first year. Feedback from clients was also phenomenal, as they recognised her genuine interest and ability in helping them grow their exposure and sales. Providing add-on services to our customers, utilising her skills which went beyond and above her duties, we secured advertising agreements of unprecedented value and commitment.

Creatively, she had the knack of turning our client's promotions (ads) into engaging local stories; producing storyboards that were easy for our co-director/cameraman/editor to follow and translate visually - completely on brief - with promotions becoming part of the overall content of the program. Our advertising customers were very happy and so were our resort clients.

Providing such an entertaining and informative program to their guests raised the quality of their services and, more importantly, resulted in increased tour bookings via their in-house tour desks.

Maike also was instrumental in securing support, sponsorship and cross-promotional agreements with Maroochydore Council, Sunshine Coast Tourism, 97.2 Mix FM and United Sports Management, to name a few.

I am honored for the opportunity to support Maike, who worked with us at the Natural Foodstore, later rebranded to Kunara Organic Marketplace, via this reference.

Maike's job description summary :

* Management * Marketing Strategy & Implementation * Rebranding * Copywriting & creating and editing our magazine "One" * Website Creation & Management * Social Media Accounts Creation & Management * Event Management and more.

Maike embodies warmth, sincerity & a caring attitude in leading a team to fulfilling their desired outcomes as well as her own. This is a rare quality, given the capacity of her position. What will always stand out during Maike's employment with Kunara was her ability to work under pressure and successfully manage multiple projects, often with conflicting deadlines.

We appreciated her head for business, her recommendations and her enthusiasm for the various projects and tasks bestowed on her. She clearly enjoyed the challenges and when required, without being asked, invested her personal time to ensure everything always ran smoothly and to plan.

Maike was an asset to our company and her direction and input directly contributed to the successful transition from a health food store to a multifaceted organic marketplace, to the revenue growth we experienced during her tenure, and the acceptance and success of the newly created brand.

We considered ourselves fortunate to have Maike on our team and highly recommend her for any position she may aspire to.

Please don't hesitate to contact me for further information.

As the former General Manager for Destiny Rescue's Australian Operations, it is my sincere pleasure to provide a reference for Maike Thiessen – National Marketing Manager.

During my time with Destiny Rescue as General Manager I acted as Maike's Direct Report. I worked very closely with her for almost a year. During this time I witnessed Maike's incredible commitment to her job and the organisation. In her time with Destiny Rescue, Maike has played an instrumental role as the National Marketing Manager and member of the Executive Team. She has demonstrated the following:

- Excellent standard of work. Always seeking opportunity for more professional development.
- Ability to establish and maintain many significant relationships with a range of Donors/Sponsors. - Passionate about the cause and the role she has to play in ensuring the organisation achieves its mission. - Very high attention to detail.
- Professional, thorough & well researched. - Many years of marketing experience in the commercial and not for profit sector with proven success in the development and management of digital, social and traditional marketing strategies and promotional campaigns. - Ability to multitask many projects at once.
- High level of communication & content writing. - Skilled in Project Management
- working with many internal & external stakeholders who are based in many different departments & locations around the globe.
- Ability to make a comparatively small budget stretch; seeking out best ROI opportunities with limited resources. As this was a new position for our Australian Operations, Maike created her role from a clean slate and established all national marketing infrastructure and protocols from scratch, all while ensuring they worked in and complemented the International vision. She is also a member of the International Marketing Team.

I witnessed Maike to be a hard worker, resilient and a valuable part of the team. In fact, Maike was offered the role of International Marketing Director after a short time, which she chose to decline for very sound reasons.

Should there come a time where Maike decides to spread her wings beyond Destiny Rescue, I believe she would be an asset to any team. There is no hesitation in my recommendation of Maike.

SIMON HOME: WHERE THE TRADIES GO

20/01/2016

To whom it may concern,

Maike Thiessen has worked for Simon Pty Ltd since August 2014. The company held a strategy meeting on the 14th and 15th of June 2014 where all the managers and the directors were present. It was decided that one of the priorities for the Simon Pty Ltd was to employ a full time marketing manager. The job was advertised and a number of very qualified applicants were interviewed. Maike was the most outstanding candidate and was offered the position. She has proved to be an invaluable employee to Simon Pty Ltd completely revamping our entire marketing program both retail and trade. Her most challenging early project was to set up a working website which was done successfully in less than five months.

I have retired from Simon Pty Ltd but would be proud to give a verbal reference. I can be contacted at 0417 200 281. I can also be contacted by e-mail at rosssimon1955@gmail.com
